RECORD HOLDERS REPUBLIC™ CONDITIONS

A RECORD HOLDERS REPUBLIC™ RECORD is an effort that is first accomplished or enhances an existing performance and is interesting enough to arouse public interest and be the subject of competition.

A RECORD HOLDERS REPUBLIC™ RECORD requires special skills, must always be measurable and comparable and, for the evaluation criteria, reach dimensions above the norm, such as quantity, size, number, speed, etc. We strongly advise against attempting to record that could in any way endanger the health of the record breaker or anyone else involved. Extreme records are only listed if they have been carried out by professional stuntmen under the most careful safety conditions.

The World Record Company or RECORD HOLDERS REPUBLIC™ assumes no responsibility for accidents or illnesses that may arise in connection with a record attempt. We suggest that medical care is guaranteed in all cases. In this context, the applicant / record breaker confirms that he will carry out his record attempt at his own expense and risk.

In addition to these general record conditions, there are many special guidelines and rules designed to ensure the comparability of record performances. Record contenders must observe the general conditions of the existing records and ask RECORD HOLDERS REPUBLIC™ EUROPE BEFORE attempting to set the record.
